“But we are assembled to protest against a form of government existing without the consent of the governed - to declare our right to be free as man is free, to be represented in the government which we are taxed to support, to have such is graceful laws as give man the power to chastise and imprison his wife, to take the wages which she earns, the property which she inherits, and, in case of separation, the children of her love; laws which make her the mere dependent on his bounty. It is to protest against such unjust laws as these that we are assembled today, and to have them, if possible, forever erased from our statute books, deeming them a shame and a disgrace to a Christian republic in the nineteenth century”

Those who profess to favor freedom, and yet depreciate agitation, are men who want crops without plowing up the ground.

People might not get all they work for in this world, but they must certainly work for all they get
